6.30pm Economic Outlook
John Abernethy

John will deliver his thoughts on the economic outlook for Australia.

John Abernethy: Executive Director & Managing Director & CIO Clime

As Managing Director and Chief Investment Officer, John Abernethy has overall responsibility for Clime Investment Management. John has over 25 years experience in funds management and corporate advisory services. Prior to establishing Clime, John's roles included ten years at NRMA Investments as the head of equities, where he successfully managed investment portfolios totalling \$2 billion. John founded Clime (formerly Loftus Capital Partners) in 1996. Through Loftus Capital partners, he advised high net worth individuals on their investments and managed portfolios on their behalf. Running a team of dedicated analysts, John has managed to turn an absolute return value investing approach in to enviable long term returns. Funds under management have now exceeded \$600M, and continue to grow apace, as his no-nonsense, unemotional approach to the market gains resonance with a market weary investing community.
